PROFESSIONAL SUMMARY

Senior Backend Engineer with 6+ years of experience building scalable APIs, microservices, internal systems, and real-time platforms using Node.js, NestJS, TypeScript, PHP Laravel, PostgreSQL, MySQL, MongoDB, Redis, RabbitMQ, React, and AWS. Proven background across telecom, education, SaaS, social platforms, and US-based business systems. Experienced working with distributed teams across US, EU, and MENA time zones. Strong focus on architecture, performance, reliability, and ownership.

CORE SKILLS

- **Backend:** Node.js, NestJS, Express.js, PHP Laravel, TypeScript, JavaScript
- **Frontend Collaboration:** React.js
- **Databases:** PostgreSQL, MySQL, MongoDB, Oracle
- **Caching / Messaging:** Redis, RabbitMQ
- **Search / APIs:** GraphQL, Elasticsearch, REST APIs, WebSockets
- **Cloud / DevOps:** AWS, DigitalOcean, Oracle Cloud, Docker, Linux, Nginx, Apache
- **Practices:** Microservices, Event-Driven Architecture, CI/CD, Multi-Tenant Systems, Performance Tuning

PROFESSIONAL EXPERIENCE

Senior Back-End Developer

Apr 2025 – Present

Axelerated Solutions – Amman, Jordan

- Build telecom and real-time communication systems using NestJS and Asterisk integrations.
- Designed multi-tenant backend architecture for isolated client environments.
- Implemented Redis TTL/session strategies for event and call-state tracking.
- Integrated RabbitMQ and MySQL for scalable event-driven processing.
- Contributed to modular redesign across VoIP, Ticketing, and Social systems.

Fullstack Software Engineer

Dec 2024 – Feb 2025

FGI Worldwide – Remote (US Company)

- Built internal business systems using PHP Laravel and React.
- Delivered backend APIs and frontend modules for operational workflows.
- Worked in a remote US-based environment with distributed collaboration.
- Supported feature delivery, bug fixing, and production improvements.

Senior Fullstack Software Engineer

May 2024 – Dec 2024

UBA (United Business Applications) – Amman, Jordan

- Developed backend services and React features for procurement SaaS platforms.
- Built GraphQL APIs and optimized data retrieval using Elasticsearch and Redis.
- Reduced API response times by 30% through backend optimization.
- Designed microservices architecture with RabbitMQ messaging.
- Supported deployments across AWS, Oracle Cloud, and DigitalOcean.

Fullstack Software Engineer

Nov 2023 – May 2024

Baaz – Amman, Jordan

- Built backend and frontend features for social platform products.
- Developed REST and GraphQL APIs.
- Improved scalability using Redis caching and Elasticsearch.
- Maintained PostgreSQL and MongoDB data models.

Senior Software Engineer

Feb 2023 – Nov 2023

Hello World Kids – Amman, Jordan

- Led backend development using Laravel on AWS infrastructure.
- Implemented RabbitMQ for asynchronous workloads.
- Built GraphQL APIs and supported CI/CD improvements.

Senior Software Engineer

Feb 2022 – Nov 2022

Rhinosoft – Amman, Jordan

- Developed Node.js microservices using NestJS and Express.
- Used MongoDB, Redis, Elasticsearch, and RabbitMQ to scale services.
- Led code reviews and mentored junior engineers.

Software Engineer

Nov 2021 – Feb 2022

Luminus Education Group – Amman, Jordan

- Developed internal systems using Node.js stack technologies.
- Supported business process automation and internal platform features.
- Worked with internal stakeholders to improve operational workflows.

Software Engineer

Nov 2019 – Nov 2021

Aspire IT Services – Amman, Jordan

- Built full-stack systems using NestJS, Express, and React.
- Designed PostgreSQL and MongoDB schemas.
- Implemented Redis and RabbitMQ for real-time workflows.

Software Engineer

Feb 2019 – Nov 2019

NCIT Solutions – Amman, Jordan

- Developed applications using Node.js, React, and NestJS.
- Built real-time features using WebSockets and Redis.

EDUCATION

Associate's Degree in Computer Technology

2015 – 2019

Al Balqaa Applied University – Zarqa, Jordan

LANGUAGES

- **Arabic:** Native
- **English:** Advanced

ADDITIONAL INFORMATION

- Eligible for EU Blue Card
- Open to Remote / Hybrid / Relocation Opportunities
- Experienced with US / EU / MENA distributed teams
